

## DELTON MARINE PTE.LTD.

### Company Profile

"Founded in 2007, Delton Marine Pte Ltd strives to deliver the most applicable and reliable products from the world's leading manufacturers to tailor our customers' needs."

Delton was first established with the objective of supplying the marine industry with fluid and engineering services. Unlike those traditional "off-the-shelf" trading companies and "sole distributor" companies, Delton's primary objective is to maintain utmost customer satisfaction by prioritising customer needs and providing competitive pricing of our products.

Over the years, we have expanded our product range as well as our network of clientele from different industries and demographics, proving ourselves to be a trustworthy and innovative solution provider. Driven by our core values of **Sincerity, Integrity and Reliability**, we aspire to seek long term success through constant innovation and training, ensuring Delton and our clients are always Future Ready.

**MISSION:** To integrate quality products with our in-house expertise into effective solutions for our customers

**VISION:** To be a market leader as a one-stop provider of fluid solutions and systems
