

PENTAS FLORA SDN BHD

Company Profile

Pentas Flora is a premier waste management enterprise in Malaysia, boasting a rich legacy of over 12 years as an expert in overseeing scheduled waste for its diverse clientele. Pentas Flora has established itself as the go-to resource for comprehensive and consolidated waste management services. Pentas Flora Maritime Services are tailored to the unique needs of the shipping and maritime industry, providing swift and efficient responses to all requests. Our specialised teams are equipped to handle any challenge that arise in this sector, ensuring the protection of the marine environment and complying with maritime regulations. In our commitment to environmental sustainability, we meticulously examine the residuals from each treatment process to ensure their environmental friendliness. By recycling these residuals for other industrial applications, we contribute to a circular economy and minimise wastage of resources.
