

SEA SCOUT

Company Profile

Sea Scout is part of the international Scouting movement, with a particular emphasis on seamanship skills, naval tradition, lifesaving, sea survival, marine conservation, and water-recreation activities. These activities can be held at sea, river or lake. Sea Scouts can provide opportunity to do various interesting activities in marine environment as well as introducing high-discipline seamanship tradition. In Malaysia, Sea Scouting is part of the Scouts Association of Malaysia since 1930. With bases in schools and communities around the country, Sea Scouting is an eye opener and good exposure for the young generation to start learning about maritime world and seamanship life. This experience will allow and encourage them to choose marine-related career, voluntarism and leisure-time activities in their adult life.
